

S.no	Paper Id	Author	Topic	Institution
1	25	Mr. Sunjay Sunjay	WAVELETS : A MATHEMATICAL MICROSCOPE	BHU VARANASI
2	31	Mr. Neeraj Gupta	Collaborative Environment Framework for E&P Operations	Deloitte Touche Tohmatsu India Pvt. Ltd.
3	37	Dr. Laxmidhar Behera	Tomographic imaging of the crust toward south of southern granulite terrain (SGT), India and its geodynamic implications	National Geophysical Research Institute (NGRI)
4	58	Mr. Mukesh Jain	Structural Framework and Deep-Marine Depositional Environments of Miocene- Pleistocene Sequence in Western Offshore Myanmar	ESSAR EXPLORATION AND PRODUCTION SOUTH EAST ASIA LTD.
5	60	Sh. Har Narain Garg	Continual improvements brought about by QHSE Management System in	ONGC, WON BASIN, VADODARA
6	61	Mr. Micheal Denis	High performance Vibroseis for high density wide azimuth land acquisition	CGG VERITAS SERVICES
7	74	Dr. Yi Xie	3D prestack depth migration with compensation for frequency dependent absorption and dispersion	CGG VERITAS
8	75	Dr. Kefeng Xin	3-D tomographic Q inversion for compensating frequency dependent attenuation and dispersion	CGG Veritas
9	76	Mr. D. P. Sinha	Sub-basalt imaging in the Gulf of Kutch	ONGC. SPIC,MUMBAI
10	79	Mr. Sagnik Dasgupta	Mumbai High Field Heterogeneity Addressed Through Quantitative Seismic Reservoir Characterization	Schlumberger DCS
11	82	Dr. Yang Liu	3D acoustic wave modeling with a time-space domain dispersion-relation-based finite-difference scheme	China University of Petroleum
12	85	Dr. Brian Russell	The phase congruency algorithm - A carbonate case study	CGGVeritas
13	88	Mr. Gabriele Busanello	Increasing Resolution with a New Method for Efficient Broadband Marine Acquisition and Processing	Schlumberger Westerngeco
14	90	Mr. Robert George Heath	Second Generation Cableless Recording Systems and Source Controllers - The Declaration of Independence for Land Seismic Acquisition.	iSeis Co
15	92	Mr. Adeep Kumar Khanna	Application of Spectral Decomposition for identification of Channel Sand Body in OIL's operational area in Upper Assam Shelf Basin, India - A Case study	OIL INDIA LIMITED

16	93	Mr. Madhu Sudhana Goud	Prediction of High Pressures in HP-HT well - A case study from	Delta Studies Institute
17	95	Dr. Abhishek Rawat	Resolution enhancement of seismic data using stationary wavelet transform	Mindset Seismic Pvt Ltd.
18	101	Dr. Simon Spitz	Feasibility of OWC monitoring from the surface with EM methods	CGG Veritas
19	104	Mr. Varun Sharma	A Seismic driven integrated approach to build a reservoir model for a heterogeneous shallow marine stratigraphic sand body in Krishna Godavari basin	Schlumberger Asia Services Limited.
20	106	Dr. Adrain Smith	Global 4-D seismic inversion and time-lapse fluid classification	CGGVeritas - Hampson Russell
21	107	Dr. Tapan Mukerji	Seismic attributes and property estimation of thin sub-resolution sand-shale reservoirs	Stanford University
22	109	Dr. John Joseph	Airborne Geophysics – A Fast Track Approach in Petroleum Explorations	UTS Geophysics
23	112	Dr. Xiaohong Chen	Time-lapse seismic monitoring for thin interbed reservoir in the Eastern China	China University of Petroleum
24	116	Dr. Maz Farouki	Beam Migration for Imaging of Complex Geology	PGS
25	117	Dr. Maz Farouki	Enhanced Resolution, Imaging, and Interpretability Dual Sensor Towed Streamer Data examples from Around the World	PGS
26	119	Dr. Ratan Lal Basak	Prestack Depth Migration - An ultimate aspiration for subsurface imaging in geologically complex area.	ONGC ,RCC,CHENNAI
27	121	Ms. Toon Hoong Lim	A Synthetic Study on the Feasibility of CSEM Application in Mapping Shallow Hydrates	EMGS Asia Pacific
28	122	Mr. S.Murugan Pugazhanthi	Dynamic modeling while acquiring seismic data	ONGC,GEOPHYSICAL SERVICES,CHENNAI
29	124	Mr. Chandramani Shrivastva	Integrated Fracture Identification with Z-VSP and Borehole Images: A study from Cambay Basin	Schlumberger
30	125	Mr. Shree Prakash Singh	Crooked line 2D seismic survey in thrust-belt mountainous area of Mizoram, North East India: A Case Study	Oil India Limited
31	129	Dr. Abhey Ram Bansal	Depth to the bottom of magnetic sources in Germany ;V analysis of anomalies of the Earth;s magnetic total field	NGRI, Hyderabad

32	130	Dr. Nimisha Vedanti	Possible extension of hydrocarbon bearing Jabera-Damoh Vindhyan basin, central India and its geotectonic evolution: inferences from detailed gravity studies	National Geophysical Research Institute
33	131	Dr. Peter Kovac	Structural mapping based on remote sensing and potential field data – a peninsular India case study	GETECH Group plc
34	132	Dr. Denis Mougnot	Digital accelerometers: how they have impacted the seismic industry in 10 years?	SERCEL
35	133	Mr. Sibam Chakraborty	Data Conditioning, Curvature Analysis and Spectral Decomposition Processing of 3-D Data.	Suvira Geotexture
36	134	Mr. Sumit Verma	Time to Depth Conversion: An unconventional approach	Reliance Industries Ltd.
37	137	Mr. Arpit Saxena	ENERGY SECURITY AN INDIAN PERSPECTIVE: THE WAY FORWARD	School of Petroleum Technology,PDPU.
38	139	Mr. Bill Mc Lain	Attenuation of geophone-component OBC noise: a case study from the Gulf of Khambhat	Global Geophysical
39	143	Mr. Utpalendu Kuila	Pore size distribution and Ultrasonic Velocities of compacted Na-montmorillonite clays	Colorado School of Mines
40	146	Mr. Seweryn Tlalka	Static corrections in challenging cases	Geofizyka Torun
41	147	Mr. Arnab Ghosh	An Approach to Water Saturation Estimation using NMR Data in Water-Wet Rocks: A Case Study	Schlumberger
42	148	Mr. Satya Perumalla	The role of Geomechanics from prospect generation and Exploration drilling to field development	GeoMechanics International
43	152	Mr. Sibam Chakraborty	Delineating Karst features using Advanced Interpretation	Suvira Geotexture
44	156	Mr. Ranjeet Singh Yengkhom	Pore Pressure Prediction: A Regional Approach	Oil India Limited
45	157	Mr. Chandra Bhanu Yadava	Shear wave statics in 3D-3C : An alternate approach	ONGC,GEOPIC,DEHRADUN
46	161	Mr. Ram Krishna Singh	Major Hydrocarbon Trap Types in Dhansiri Valley,	ONGC,KDMIPE , DEHRADUN
47	163	Dr. Kabir Roy Chowdhury	Delineating basement structure under sedimentary cover using Gravity Inversion	Utrecht University (retd.)

48	164	Dr. Balram Bhadu	Inter-basinal correlation of Paleogene sediments of Jaisalmer and Barmer basins, western India: an approach by sequence stratigraphy	ONGC,KDMIPE,DEHRADUN
49	165	Mr. Neeraj Kumar	Multi geophysical attribute analysis reveals new plays in the Dharvi Dungar Formation of the Barmer Basin, Rajasthan, North West India	Cairn India Limited
50	171	Mr. Surender S Manral	Multi Attribute Analysis - An effective visualization & interpretation technique	Paradigm Geophysical
51	174	Mr. Chris Nind	Results from the Initial Field Trials of a Borehole Gravity Meter for Mining and Geotechnical Applications	Scintrex Ltd
52	175	Mr. Andrey Kazurov	Features of some petrophysical interrelations of reservoir rocks of Western Siberia	PANGEA
53	178	Mr. Andrey Kazurov	Development of technology of petrophysical knowledge synthesis and its application to formation evaluation.	PANGEA
54	187	Mr. Bruno Gratacos	Shear-waves processing: Characterization and opportunities of shear-wave splitting	CGG Veritas
55	188	Dr. Saumen Maiti	Automatic detection of Litho-Facies via the Hybrid Monte Carlo Based Bayesian Neural Networks Approach	Indian Institute of Geomagnetism(IIG)
56	198	Mr. Himangsu Sekhar Maity	Understanding the unusual spinner response of small diameter continuous flowmeter in two-phase flow for reservoir management in inclined wells - a case study from Mehsana oil fields.	ONGC Academy,Dehradun,
57	200	Dr. Roberto Fainstein	Modern Seismic Attributes Transforms Classical Structural & Stratigraphic Interpretation	Western Geco
58	207	Mr. Puneet Saraswat	Particle Swarm and Differential Evolution – Optimization for stochastic inversion of post-stack seismic data	Indian School of Mines ,Dhanbad
59	220	Mr. Sayan Ghosh	Identifying relationship between Permeability, Overburden Pressure and Gas Content of the coal seams in Raniganj Coalfield	Indian School of Mines, Dhanbad
60	222	Mr. Rakesh Nautiyal	Seismic guided Well Placement in Karstified Carbonate Reservoir: A case study	ONGC, ASSET, MUMBAI

61	224	Mr. Edward Hager	Full Azimuth Seismic Acquisition with Coil Shooting	Western Geco
62	226	Mr. Mahendra Pratap	Is Mumbai High a Naturally Fractured Carbonate Reservoir?	ONGC, WOB, MUMBAI
63	229	Mr. Yogaxem Sharma	A new technique for porosity determination using seismic density	IIT Bombay, Mumbai
64	238	Dr. Kiet Anh Nguyen	Recent Advances in Shallow Water Marine CSEM Surveying	EMGS ASA
65	239	Dr. Hongwei Liu	The GPU/CPU based Fourier integration depth migration: algorithm and implementation	Institute of Geology and Geophysics, Chinese Academy of Sciences
66	240	Dr. Bo Li	A method of accelerating seismic Pre-stack time migration by GPU	Institute of Geology and Geophysics, Chinese Academy of Sciences
67	242	Mr. Dean Kenneth Clark	Common Reflection Angle Migration (CRAM) for improved input to reservoir description – An example from offshore India	Paradigm
68	246	Mr. Lars Lorenz	Interpreting CSEM data in complex resistivity regime	EMGS Asia Pacific
69	248	Dr. Emmanuel Labrunye	New 3D flattened space for seismic interpretation	Paradigm France
70	249	Prof. Mita Rajaram	Mapping of Subsurface Lithology Using Magnetic Data	Indian Institute of Geomagnetism
71	251	Mr. O. P. Singh	A feasibility study for full wave seismic imaging in Cauvery Basin, India	ONGC, RCC, CHENNAI
72	255	Dr. Ranjana Ghosh	Clay anisotropy and gas hydrate saturation in KG Basin, eastern offshore India: Site 15	NGRI
73	257	Dr. Asha S Mishra	Fractional Derivative in Pressure Transient data Analysis with Phase Redistribution in Fractal Reservoir for Reservoir Characterization	Valia Institute of Technology, valia, Gujarat, India
74	261	Mr. Pritam Jha	Speculative Petroleum System & Play Model of East Andaman Basin from Regional Geology and Basin Evolution Concepts: Addressing the Exploration Challenges of an Extreme Frontier Area	Eni India Ltd.
75	263	Mrs. Patrizia Cibin	Interval anisotropic parameters estimation in a least squares sense – Case histories from West Africa	Eni E&P Division
76	264	Miss. Pratibha Srivastava	Challenges in Processing of Multi Azimuthal, Multi component Offset VSP data in a deviated well of Kuthalam area of Cauvery Basin, India.	ONGC, SPIC, Mumbai

77	265	Mr. Randeep Guha	Design, Implementation & Integration of Fast Track Meta-Data Pre-Processing & Data Management in Field Processing Units - An innovation in Solution & throughput oriented approach	ONGC,RCC,Vadodara
78	268	Dr. Ying Shi	Surface-related multiple elimination with multiple prediction on GPU	Institute of Geology and Geophysics,Chinese Academy of Sciences
79	270	Mr. Veeturi Sanyasi Rao	SIGNIFICANT IMPACT OF LOOK AHEAD VSP ON UNDERSTANDING THE SUB-SURFACE AHEAD OF BIT – DEMONSTRATED VALUE ADDITION AS WELL AS COST SAVINGS IN DEEPWATER ENVIRONMENT	ONGC, WELL SERVICES GROUP, MUMBAI
80	274	Mr. Nepal Singh	Elastic impedance for gas sand discrimination and risk mitigation: A case study in the deep water of Mahanadi Basin	ONGC , E&D, DEHRADUN
81	276	Dr. Subba Rao V Yalamanchili	FALCON Airborne Gravity Gradiometer, Aeromagnetic and Seismic Data Integrated Interpretation for the basement and structural configuration over Chirete area, Argentina	Fugro Gravity & Magnetic Services, Inc.
82	280	Dr. Shastri Lakshman Nimmagadda	Modeling Multidimensional Australian Resources Data for an effective Business Knowledge Management	Schlumberger
83	288	Dr. Suhas Phadke	Reverse Time Migration and Amplitude Preservation	Computational Research Laboratories Ltd.
84	292	Mr. Ravi Sharma	Elastic Properties of Carbonate: Effects of Fluids Frequency and Heterogeneity	Colorado School of Mines
85	293	Dr. Ian Jones	A practical review of migration issues and solutions	ION Geophysical
86	296	Mr. Ashique Sreenivasan	Use of Antrack Volume in Horizontal Well Placement	Reliance Industries Ltd
87	308	Mr. V V Kamat	Integrated geoscientific studies for production revival from offshore brown field platform— A case study in Mumbai High field	ONGC, MH ASSET, MUMBAI
88	326	Mr. G. Dhanunjaya Naidu	Electrical signatures of the shallow crustal features across the NSL zone using magnetotelluric study, central India	National Geophysical Research Institute
89	336	Mr. Sanjeev Thakur	An Integrated petrophysical Study of deep water turbidite reservoir to improve Hydrocarbon saturation	Reliance Industries Ltd,(Petroleum Business,E&P)

90	342	Dr. S M Chatterjee	Subduction Tectonics and its Gravity and Magnetic response in Andaman Sea	ONGC,KDMIPE,DEHRADUN
91	345	Mr. Shubhabrata Samantaray	Combined Seismic Multiple Attribute Analysis: An effective tool for lightly explored basins	Reliance Industries Limited
92	353	Dr. Pradip Kumar Mukhopadhyay	A ray-based offset-to-angle transform for anisotropic medium and its implication in the prestack multicomponent waveform inversion	University of Wyoming
93	355	Mr. Dinesh Kumar Mathur	Underground Coal Gasification –a future source of Energy Security	ONGC,IRS, AHMEDABAD
94	356	Ms. Sujata Venkatraman	Imaging Through the Deccan Basalts – New lessons from IndiaSPAN II	ION Geophysical
95	358	Dr. Kurt Martin Strack	Marine Time Domain Electromagnetics	KMS Technologies
96	359	Dr. Kurt Martin Strack	Advances in Electromagnetics for Reservoir Monitoring	KMS Technologies
97	363	Mr. Atul Tyagi	Interpretation and evaluation of hydrocarbon prospects using Marine Controlled Source Electromagnetic data: A 2.5D forward modeling study	Reliance Industries Ltd.
98	364	Dr. Shiva Prasad Kanapuram	Study of complex behavior of marine controlled-source electromagnetic (CSEM) fields for anisotropic media through model simulation	Reliance Industries Ltd.
99	369	Mr. Per Helge Semb	Offshore Cyprus and Lebanon, a Future Hydrocarbon Player	Petroleum GeoServices
100	370	Dr. Mrinal Kanti Sen	Use of Prior and Hyper-prior in Seismic Inversion for Reservoir Characterization	University of Texas at Austin
101	371	Mr. Durga Prasad S	Role of Knowledge Societies as a Solution Provider	ONGC,E & D ,DEHRADUN
102	374	Mr. Satyanarayan a Pratha	Hydrocarbon prospectivity of the Basement of Mumbai High Field	ONGC,MHASSET,MUMBAI
103	376	Dr. Satish C Singh	Study of Great Sumatra Earthquake Subduction Zone Using Very Long Offset Seismic Acquisition and Processing Techniques	University of Cambridge, UK
104	377	Dr. Satish C Singh	Full Waveform Inversion: Past, Present and Future	University of Cambridge, UK
105	381	Dr. Jerry Kapoor	complex imaging	WESTERN GECO CORPORATION
106	382	Dr. Guillaume Cambois	Azimuth diversity in towed marine seismic: Multi-Azimuth (MAZ) and Wide-Azimuth (WAZ) acquisition	Petroleum Geo-Services,SINGAPORE

107	384	Dr. Warren Wood	Natural Concentration Mechanisms for Gas Hydrate	US Naval Research Lab
108	385	Dr. G Shanmugam	Process Sedimentology of Deep-Water Petroleum Reservoirs: Offshore Krishna-Godavari Basin	Univ Texas Arlington
109	386	Dr. Patrick Connolly	A review of the use of seismic attributes for risk reduction and reservoir characterisation	British Petroleum
110	387	Dr. Subhashis Mallick	Geophysical monitoring carbon sequestrated brine aquifers- a feasibility study	Univetsity of Wyoming
111	389	Dr. Gopal Mohapatra	Exploration in Sub-salt environment in Deepwater Gulf of Mexico, USA	Hess Corp
112	390	Ms. Manika Prasad	Reinventing Source Rocks as Reservoirs	Colorado School of Mines
113	391	Mr. Arthur C.H. Cheng	Rock Physics of Reservoir Monitoring: Effects of Stress and Saturation Changes	OHM Rock Solid Images
114	392	Mr. Satinder Chopra	Interpreting fractures through 3D seismic discontinuity attributes and their visualization	Arcis Corp, Calgary
115	393	Mr. Nader C Dutta	Gas Hydrate Exploration and Exploitation: The recent advances and the road-ahead	Data and Consulting Services
116	394	Dr. David Lee Klung	Is Health & Safety-a vital for growth and sustenance?	Rolls-Royce, Asia Pacific, Customer Service Business, Singapore
117	395	Mr. Sanjay Srinivasan	Modeling diagenetic pathways constrained to seismic impedance data in a carbonate reservoir	UT , AUSTIN
118	396	Dr. Gopal R Amruthapuri	Realistic Pore pressure Prediction in Challenging Environments	Pore Pressure Consultant, Houston
119	400	Mr. Sylvere Depagne	Application of Controlled Beam Migration to sub-basalt imaging: A case history from the Kerala-Konkan basin, west coast of India	CGGVeritas .india
120	402	Dr. Brian Russell	AVO and pre-stack inversion	CGGVeritas
121	403	Dr. Zvi Koren	Full Azimuth Angle Domain Imaging	PARADIGM
122	410	Dr. Romain Soubeyran	An Unconventional Future for Seismic?	CGG Veritas
123	412	Mr. Kutty PSN	Reducing pitfalls in Seismic Data Management	ONGC, GEOPHYSICAL SERVICES, MUMBAI
124	415	Dr. Tapan Mukerji	Advances in Rock Physics: Imaging and Computation at the Pore Scale	Stanford University
125	416	Mr. Raghu K Chundru	Regional Pore Pressure Prediction in Deep Water Turbidite Setting	Shell India
126	419	Dr. Rabi Bastia	Expanding Exploration Frontiers of India	Reliance Industries Limited., India
