

SPG, India Organizes a Talk by Dr. Gijs Vermeer

Mr. Apurba Saha, President SPG India, welcoming Dr. Gijs Vermeer of 3D SymSam Ltd. Netherlands prior to his talk

A talk on “3D seismic survey design for optimal spatial processing results” was organized by SPG, India at GEOPIC, Dehradun on 11th February 2005. The talk was delivered by Dr. Gijs Vermeer, a well known authority on 3D survey design and the founder of 3D SymSam Ltd., Netherlands. In his enlightening talk, Dr. Vermeer emphasized the importance of 3D symmetrical sampling and good spatial continuity in the 3D acquisition geometry for ensuring optimal processing results. The talk was attended by around 50 SPG members and geoscientists and triggered very interesting discussion amongst the participants and Dr. Vermeer.

Dr. C.H. Mehta, Vice President SPG India, giving memento to Dr. Gijs Vermeer of 3D SymSam Ltd. Netherlands
