

Geophuzzle

Across

2. Profitable Strata.
3. A Graceful unit in rheology.
5. A type of S-wave used for shear statics.
8. The Northern most boundary of Shiwalik formation.
11. A tall slender pillar of rock.
12. A Software for correlating seismic to Log data.
14. A producing basin on the western onshore India.
18. A name associated with FFT.
20. Travel-time equation for Pre-stack Migration.
21. A fluid used for drilling.
22. Mr. DMO.
24. A cap rock of anhydrite and limestone.
25. A low grade fossil fuel.

Down

1. He predicted two types of P-waves in a fluid saturated rock.
2. Government approval for exploration of hydrocarbons.
4. A perfect structural trap.
6. The longest unit of time in geology.
7. Not a good pay sand.
9. A genuine gas related reflector; looks like a multiple.
10. The first name in study of fluid-flow in porous media.
13. Cavities in a carbonate rock.
15. The Father of CDP technique.
16. A useful but much maligned technique for detection of Gas.
17. A good reservoir material.
19. An electromagnetic prospecting method.
20. A test for producibility of an oil/gas well.
23. A legend for a type of carbonate.
